Greetings Sponsors, Sister Schools and Members,

Hi everyone,

I'm pleased to say that the news from Bali is encouraging and numbers are down again. Yesterday there were 21 new infections and deaths down to 5. This is a huge improvement on a couple of weeks ago. You will have seen in the news that the Government in Bali is opening the borders to tourists from some countries, although with the regulations and requirements, most people will not venture to Bali while there is still quarantine for 8 days on arrival.

Much of the same is happening through the coordinators in Bali. As well as sending regular financial updates, they send their pictorial reports and I thought today I would show you one of Oka's reports in its entirety.

FOOD AID REPORT BY Oka D for ADOPT A SCHOOL PERTH - PART 25

It was the 25th distribution and wow, it was an amazing achievement so the food aid program as it continues to deliver food aid to many, many, families in Bali. Again let me send my million thanks to sponsors who enable this program.

In this part food basic parcel was delivered to 10 families. Here are the photos of the recipients.

And once again thank you to all who are making this program happen and continues until present time.

Oka

AAS Coordinator, Bali.

In addition, Oka is continuing with the Rice for Rubbish programme and visits different villages at scheduled times and days. He exchanges 5kg bags of rice for a large bag of recyclable rubbish which is then unsold. He is reporting much cleaner villages and a greater awareness of looking after the environment by many families.

Thanks Oka and all the coordinators who are giving their time, continuing to do such a wonderful effort.

The other coordinators are continuing on with their planned programmes and all are doing an amazing job. AAS is but one of many agencies assisting the people of Bali. I have checked with all of the coordinators. Most were not affected by the recent earthquake. As far as I can determine, there were no injuries to our crew and families. Ida Bagus Mantra's house roof caved in and although he has been able to cover the house with plastic, it is now wet season and he will need to wait for the dry season before it can be reroofed. His house is on the South East side of Mt Agung, with a wonderful view of the mountain from his kitchen window. The epicenter was between Mt Agung and Mt Batur to the North East of Gus's house. Just what the people of Bali need right now!!

Everyone in Victoria and NSW who have been in lockdown and will have restrictions lifted this week will be looking forward to being able to go out and about. Best wishes ongoing and we hope to see infection numbers decreasing for you in your home State. Stay well.

I have been asked to put the AAS Bank details in each newsletter as some of the sponsors pass the information to friends and it makes it easier for them to put their hand on the information at a moment's notice.

Again, many thanks to all the donors who are making it possible for our programmes in Bali to continue. Every day, the coordinators are approached by new people begging for food. We can't imagine what it is like to have nowhere to turn when everyone is in the same situation and there is no Government help.

Kind regards,

Sherryn Reid, AAS
